

LCD WRITING TABLET

Saving Paper up to
100,000 pages

PLATINET DRAWING TABLET

The Platinet tablet is the perfect solution for children who like to draw, as well as all those who can not imagine life without handwritten notes. It protects the environment, eliminating the need to use traditional paper.

SKETCH, DRAW NOTE

The tablet has a specially adapted screen with low energy consumption, which, in combination with the included stylus, allows you to take handwritten notes and drawings just as comfortably as on paper - written text appears on the screen immediately, and pressure is also distinguished. The button under the screen allows you to delete the entire screen content with just one click.

COMFORTABLE SOLUTION

The device weighs only 150 grams and is ultra-thin, so you can easily take them with you wherever you want. The replaceable CR2016 battery allows you to sketch approximately 100,000 pages. The stylus included in the set is as easy to use as a traditional pen. It can be hidden in the tablet casing, which prevents it from being lost.
