POWERTRAVELLER

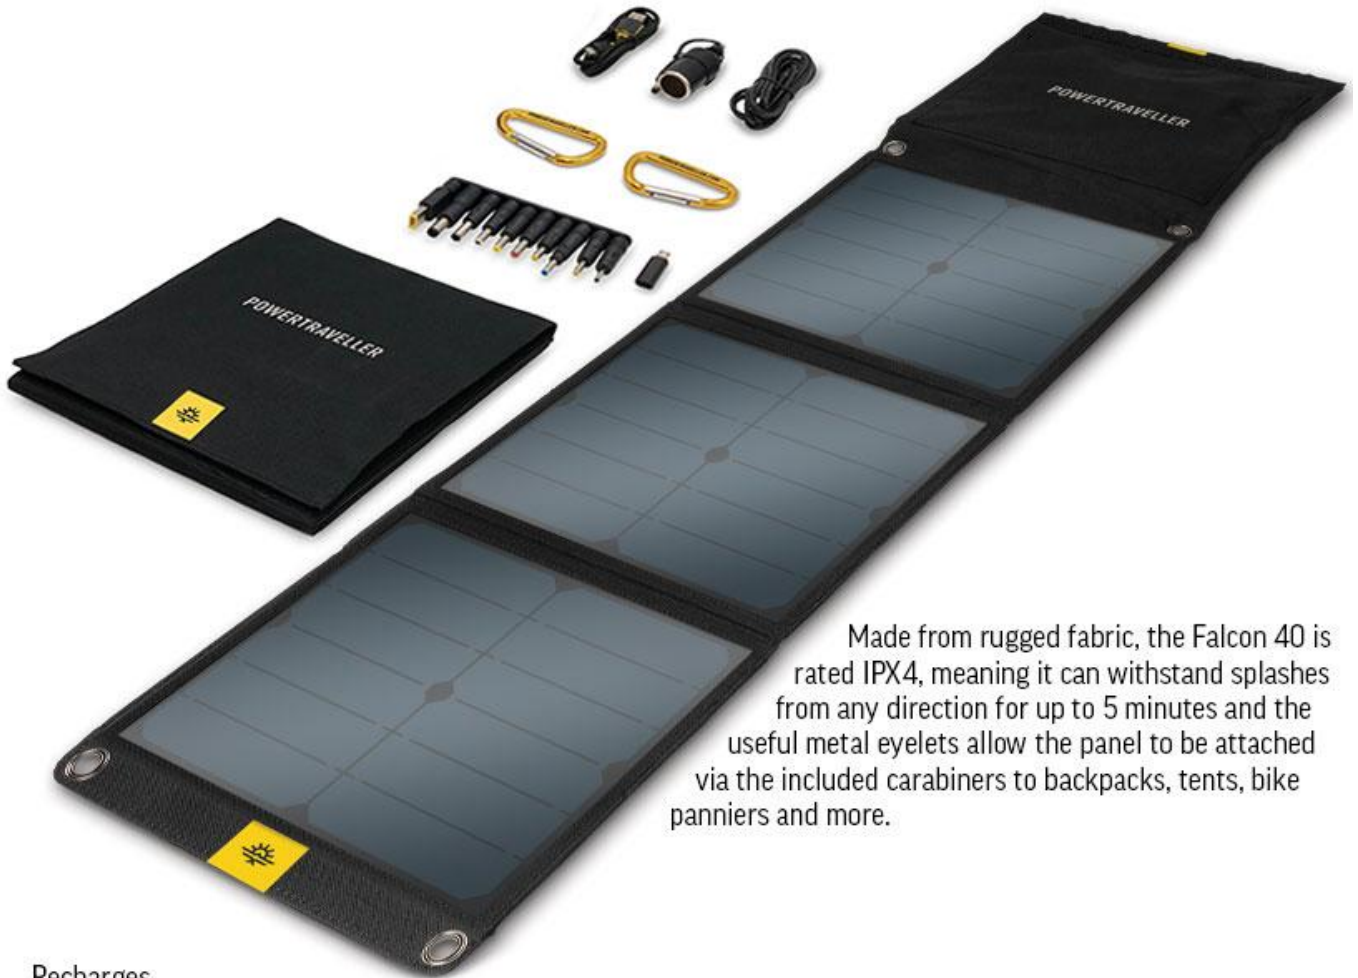

FALCON 40

FOLDABLE MULTI-VOLTAGE SOLAR PANEL

The Falcon 40 is a lightweight, foldable solar panel designed to charge laptops and netbooks (under 40W only), tablets, SAT phones, GoPros, smartphone and virtually any other 5V or 20V electronic device with the power of the sun.

This high-performance solar panel can charge up to 3 devices simultaneously (2 via USB and 1 via DC) and the incorporated high-efficiency monocrystalline cells from SunPower™ produce 25-35% more power compared to conventional cells.

Meinen Laptop lade ich unterwegs mit Sonnenenergie - Powertraveller Falcon 40

Made from rugged fabric, the Falcon 40 is rated IPX4, meaning it can withstand splashes from any direction for up to 5 minutes and the useful metal eyelets allow the panel to be attached via the included carabiners to backpacks, tents, bike panniers and more.
