

Active Noise Cancelling von TnB aus Frankreich !

These earphones have been developed with state-of-the-art components: long-lasting batteries, hyper sensitive microphones and the latest generation BES2300 Noise canceling chipset.

Experience total sound immersion thanks to an active noise reduction system up to 28 dB more efficient than ever. Thanks to the on-board high resolution processor you will benefit from the latest Bluetooth 5.0 allowing you to play your HD tracks or listen to your music for more than 30 hours thanks to an extended autonomy !

Resistant to water and dust: in the rain or even during your sport, don't worry with the FEAT PRO earphones !

Control your tracks directly with the touch control function

Discover the fast charge, thanks to the new USB type C technology.
Now by charging your headphones for 5 minutes, you get one hour of listening time!

The image shows the TnB logo in the top left corner. Below it are two white earbuds: one is shown from a side profile, and the other is shown from a top-down perspective. In the foreground, there is an open white charging case with two earbuds inside. The background features a woman wearing one of the earbuds, looking slightly to the side. The overall scene is set against a warm, bokeh background of light spots.
