

JVA06 Dual HDMI™ Video Capture - For those who want all the possibilities

The **JVA06** is perfect for content creators/producers who want to level up their content without spending a fortune and live streamers who want to simplify their setup without compromising the quality of their content.

It features a USB-C® host connection with Power Delivery 3.0 and two cold shoe adapters to attach to your DSLR for the perfect combination of ease-of-use and mobility, giving you the ability to live stream without interruptions and charge your connected USB-C device at the same time.

60W Power Delivery 3.0

Keep your USB-C™-enabled laptop/phone charged while broadcasting

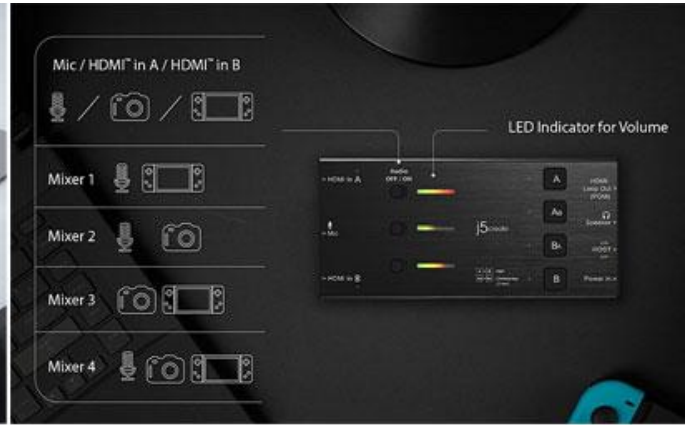

High-Definition Video

Supports uncompressed 1080p 60 capture and 1080p 60 HDMI™ loopout (PGM out)

Driver-free Installation

Standard UVC (Universal Video Class) protocol allows the device to work automatically with the system-supplied driver.

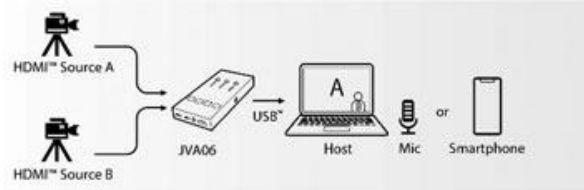

Built-in Audio Mixer

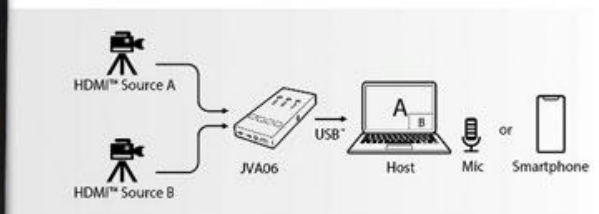

3 individual mixable audio channels and volume indicators simplify recording and streaming for any occasion.

Chroma Key

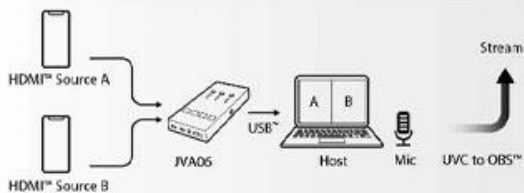

Press Chroma Key "AB + BA" for 2 seconds to switch on/off image synthesis

- Supports 1080p 60 HDMI™ loop out (PGM out)
- Six screen mode configurations with PIP (Picture in Picture) and PBP (Picture by Picture)
- Easily switch between different screen modes and adjust transition effects with the built-in buttons
- Directly activate Chroma Key features through the built-in controls
- Adjustable segmented window arrangements in PBP (Picture by Picture) mode
- Flexible audio connection via HDMI™ or add external audio with 3.5 mm mic-in and speaker out audio jack
- 3 individual audio mixer on/off switches supported
- 3 channel volume indicators
- Easy DSLR attachment with 2 cold shoe adapters (included)
- Supports USB-C™ Power Delivery 3.0
- UVC standard, plug & play
- LED activity indicator
 - HDMI™ IN
 - USB™ Link
 - Volume Unit

Perfect for live streaming

The **JVA02** is a lightweight, stylish and powerful HDMI™ capture card.

Live Capture Adapter

HDMI™ to USB Type-C™ with Power Delivery

JVA02

- UVC Plug & Play
- 1080p 60 fps
- 3.5 mm Headset Mic
- Audio Mixer
- PD 3.0 Charging
- Cold Shoe

Easily use your camera for live streaming

It consumes very low power, yet can capture 1080p with 60 frames of uncompressed video under USB™ 3.0. It can be broadcast continuously with three mixing modes and Power Delivery 3.0.

Connect the JVA02 to your cold shoe adapter on your camera for the perfect combination of ease-of-use and functionality.

Microphone Mixer Function with 3 Audio Modes

Use the switch to change between 3 different input modes.

Take Control of Your Live Broadcast Recording

There are 3 modes to choose from: Mic / Mix / HDMI™

Maximum Capacity Third-Party Software Support

Use any Live Streaming App you like on your mobile device. One other benefit of ExtremeCap UVC is its high compatibility with existing third-party streaming software like OBS, Wirecast®, XSplit®, Adobe® Flash® Media Live Encoder, etc.

Software	Capture (JVA02/JVA04)	YouTube™ live 24 hrs
OBS	OK	OK
XSplit® (Broadcaster)	OK	OK
Adobe® Flash® Media Live	OK	
WireCast® 9.0	OK	
vidBlaster®	OK	
Zoom®	OK	
QuickTime® (Mac®)	OK	
Skype™	OK	
AVFounddation(Mac®)	OK	

No Software Installation or Configuration Needed

Plug-and-play device that requires no driver installation.

UVC driver-free
